

Atlantic City

tion Bureau, Washington, D. C.

Atlantic City, N. J., Aug. 14.—"Welcome to Atlantic City," America's Playground," says the big electric sign on the building of the Atlantic City Electric company, which one can see from the train window, and pulse quickens with anticipation. Here is a veritable city of joy, greeting him in letters of fire.

Two weeks later, as he is pulling out for home, sunburnt, broke, and bitten by sand-flies in 17 of the most inaccessible parts of his anatomy, his imagination pictures under that welcome sign a proviso as follows: "Provided you make a reservation four months ago, and do not mind paying two or three times for everything you get."

Owing to the fact that some eight or ten Atlantic City hotels advertised in his home paper, the vacationist did not think it was necessary to make a reservation. If the hotels had all their rooms engaged for the next two summers, why did they advertise?

But this question is forgotten as the hunt for a room grows fast and hot. Atlantic City is reputed to have over one thousand hotels. Of these, perhaps 70 are really good hotels where you can spend a day in mid-season, provided one of your ancestors bequeathed you a reservation, for about what it would cost you to spend a week at home.

These good hotels front the beach. The other 930 are small frame shacks, built shortly before the Civil war. They line every street in solid ranks for a quarter of a mile back from the beach. In appearance and quality of service they are about on a par with those hotels in big cities which have the office upstairs, and advertise rooms at 50, 45 and 35 cents.

In off-season times these hotels will give you a room on either the American or the European plan. If you want, they will give you anything you want, at your own price. In October you could probably rent a whole hotel for about \$2 a night. But not in July—not by a darn sight! The average rate in the humblest hotel is around 25 a night, American plan. The Atlantic City people are strong for hotel Americanism. Which means that where you find shelter, however they give you, and take whatever they give you. They wouldn't have you eat a meal away from home for anything. That's how hospitable they are. Welcome to Atlantic City!

It is to these endless rows of small wooden hotels with long names that our hero, the hopeful vacationist, ultimately comes. But do not imagine that he gets a room in a hotel with the name "Inexhaustible Included." Such things are reserved for those with forethought and political pull.

The first thing that Atlantic City gives this vacationist is a long walk. With his suitcase in his left hand, fanning his dewy brow with a chip straw hat in his right, he plods from door to door, looking at the "Inexhaustible Included" handbills, and listening to the latter. Most Atlantic City hotels are run by motherly looking persons who turn you away from their doors with a patient kindness and an obvious regret that almost brings a tear to the eye.

All of them are "full up," but some few can be found who will take up in anyway, just because they are naturally kind and hospitable, and perhaps because they want to live up to the electric sign. The proprietor of one hotel, for example, which has 14 rooms and one bath, and allows guests to wear their own suits in the lobby, tells you with a smile that all of his rooms are engaged until September 1.

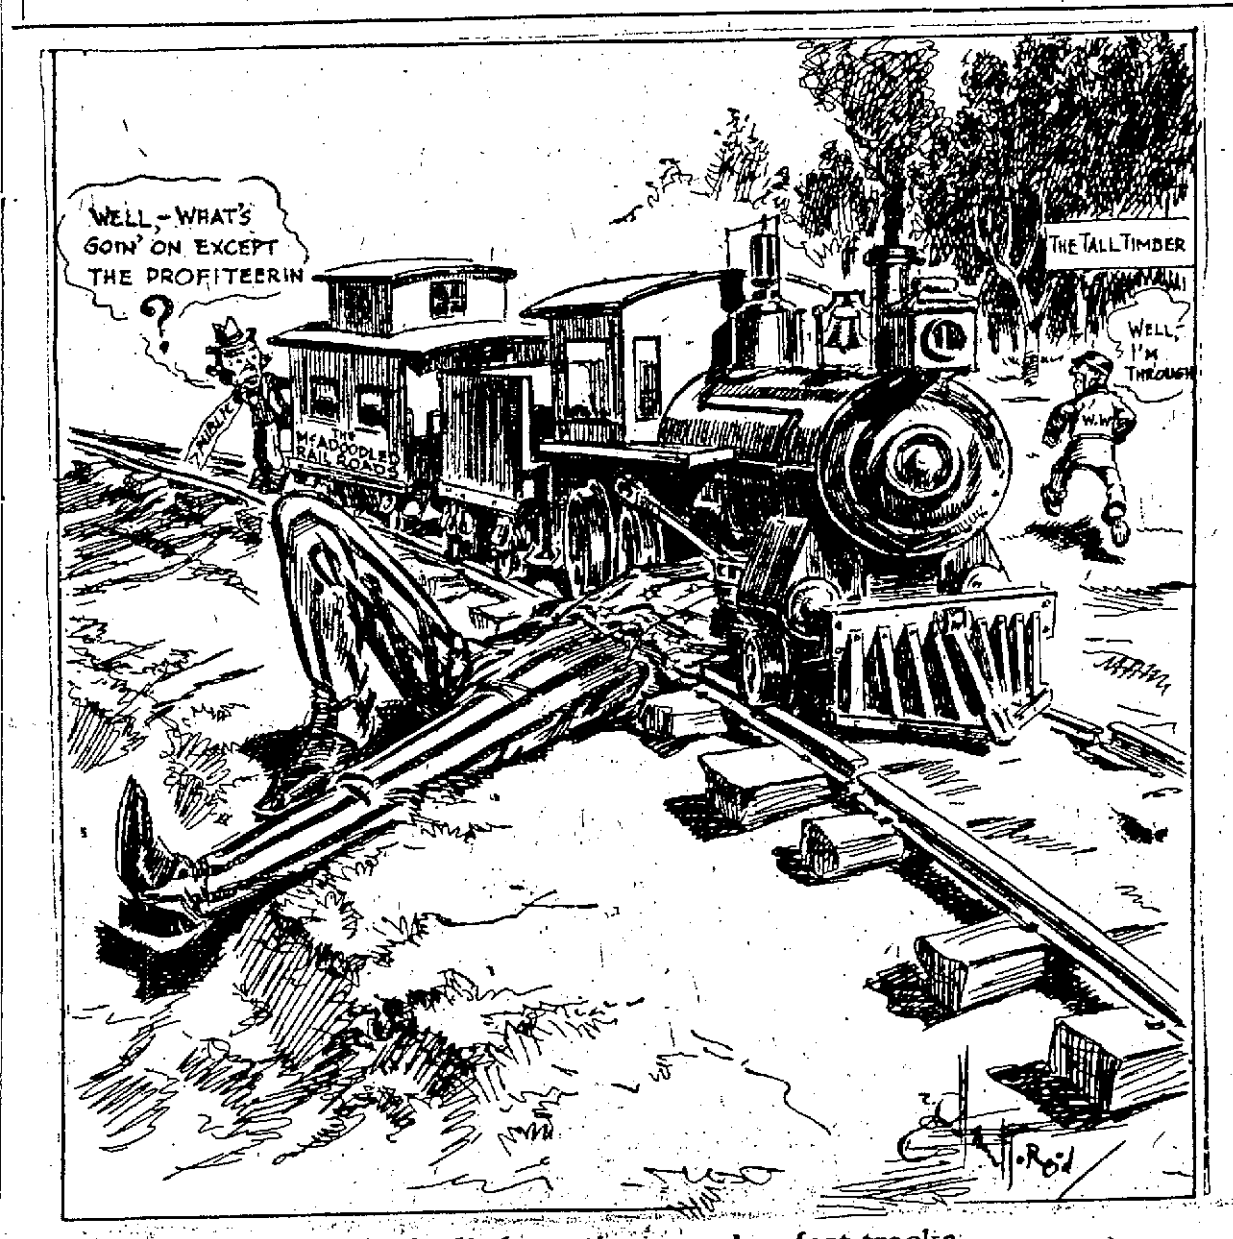

"Tell you what I'll do, though, just as an accommodation," he adds. "See this sofa in the parlor? Well, just as an accommodation I'll let you have that for \$7, with your meals. There won't be anybody in here after 12 o'clock, so you can have it all to your- self."

Feeling that if the keeper can do that well, perhaps some other place will do better, you continue on your way, and find another house which advertises in New York and Washington papers as "Atlantic City's Hotel Unique." It is made by throwing together several ancient residences. The dining room is in the basement and the office across the street, while unlimited bathing facilities are afforded by the Atlantic Ocean, two blocks away.

Leads You to Attie.
The stout woman who runs the house leads you by devious and creaking stairways to the attic, where she shows (Continued on page 2.)

CARNEGIE BURIED IN SLEEPY HOLLOW; RITUALS ARE SIMPLE

Lenox, Mass., Aug. 14.—The funeral of Andrew Carnegie was held at Shadowbrook, his summer home in the Berkshires, today. There was no eulogy and there were no pallbearers. The service was as simple as the life of the man himself. Fully one half of the 60 persons present were members of the household.

The ritual of the Presbyterian church was used by Dr. William Merrill of the Brick Presbyterian church, Fifth avenue, New York, where the Carnegies attended, and which Mrs. Carnegie and her daughter, Mrs. Roswell Miller, are members.

Dr. Merrill was assisted by the Rev. Benson N. Wyman, pastor of the First Congregational church.

At the conclusion of the service, which occupied barely 20 minutes, the body was removed to Hillsdale, New York, where a funeral coach was in waiting. This car was attached to the New York Central leaving at 1:11 o'clock this afternoon for Fairport, N. Y. Thence the body was taken by automobile to Sleepy Hollow for interment in a lot chosen by Mr. Carnegie some years ago.

The service at Shadowbrook was held in the room overlooking Lake Mahkonee, one of the beauty spots of the estate and where Mr. Carnegie spent many happy hours at his favorite pastime of angling in a severely plain casket in the center of the room and all but hidden in a wealth of floral places. With Mrs. Carnegie and her daughter, Mrs. Roswell Miller, and Mrs. Carnegie's nephew, Andrew and Morris Carnegie, Mrs. Carnegie's private secretary, Archibald Barron, and John Poynton, who had long served the master of the house in a similar capacity.

Next in the circle were notable representatives of those who had helped the industrial giant to make his millions, and others who had helped the philanthropist distribute the major part of those millions for humanitarian purposes. Among these were Charles M. Schwab, once president of the Carnegie Steel company; Robert A. Franks, business adviser of the iron master; John D. Rockefeller, who represented the Carnegie peace foundation during the peace conference at Paris; and Oliver H. Ricketson.

Tokio Printers Back; Newspapers Out Again
Tokio, Aug. 14.—Newspapers are again publishing news following the settlement of the strike of printers which forced a general suspension last week.

ORGANIZED LABOR ENDORSES STRIKE
Des Moines, Ia., Aug. 14.—Organized labor at a mass meeting last night at which all of the 16 local unions were represented, endorsed the strike of street car employees which went into effect yesterday morning, and also endorsed a proposed strike of teamsters and demands of city policemen and firemen for increased wages.

Peoria Riots Quiet; Troops Under Arms

Peoria, Ill., Aug. 14.—With two regular Illinois reserve militia held under arms in readiness to suppress any renewal of guerrilla warfare between striking employees of the Key-Stone Steel and Wire company and strike-breakers, which last night resulted in the shooting of five persons, state officials today began conferences that they hoped would bring about a settlement of the difficulties.

An armistice had been declared between the two factions to last until six o'clock this evening.

Six explosions, believed to have been dynamite blasts, shook the works of the Keystone plant yesterday and early today, and reverberated throughout the city.

What the blasts really were and where they were fired is a mystery. That the blasts were inside of the heavily guarded works of the Keystone mill is admitted by officials of the company, who, however, offer no further explanation.

Adjutant General Dickson arrived here by motor from Springfield this morning to join a conference of city and company officials and state military authorities.

It is understood that the strikers have submitted their demands to Brigadier General Wells and he will attempt today to effect a settlement with the Keystone officials.

RUMANIAN TROOPS TO LEAVE BUDAPEST

Amsterdam, Aug. 14.—Rumanian troops are about to leave Budapest in consequence of the note sent to Rumania by the peace conference, according to a wireless dispatch received here from Vienna quoting newspapers of that city.

Charges Government With Profiteering

Toledo, Ohio, Aug. 14.—Profiteering by the government in the sale of 22 cents a pound which it bought, charged today by J. A. Ulmer, president of the National Retail Grocers' association, at a meeting called by Mayor Cornel Schreiber to discuss food prices.

Ulmer charged that the government is holding 8,000,000 pounds of prunes at 22 cents a pound which it bought, charged today by J. A. Ulmer, president of the National Retail Grocers' association, at a meeting called by Mayor Cornel Schreiber to discuss food prices.

WILSON QUESTIONED ON RELIEF FUND

Washington, Aug. 14.—President Wilson was asked in a resolution introduced today by Chairman Good of the appropriations committee to report to the house what use was made of the \$100,000,000 fund appropriated by congress for relief of the destitute people of Europe.

KOLCHAK ROUTED FROM URAL MTS. BY BOLSHEVIKI

London, Aug. 14.—The retreat, in the Ural mountains of the forces of Admiral Kolchak continues, according to news received here today. South of Uralak at the southern end of the Ural, it is added, the bolsheviks have driven the Cossacks back 60 miles and are endeavoring to separate them from the main body of Kolchak's forces.

Kolchak's forces are fighting on both sides of the trans-Siberian railway. East of Cheliabinsk, a junction point on the railway, the bolsheviks are said to have reached the line of the Miss and Isset rivers and captured Tiumen, just east of the Russian-Siberian border. The advance of the bolsheviks is likely to be checked.

The Associated Press is informed, however, that the general position of Admiral Kolchak and his government is not believed to have been made materially worse by the bolshevik advance, and barring the unexpected collapse of Admiral Kolchak, the bolsheviks are sending should arrive in Siberia in time to aid in his recovery.

Nevertheless, it is admitted here that reverses are a serious blow to the policy of the emperor in Russia. News has been received from South Russia, where General Petlura, the Ukrainian anti-bolshevik leader, is progressing rapidly toward Kiev with a view to cutting the railway southward toward Odessa. The Russian volunteer troops under General Denikin are closing in on Odessa from the northeast and the east and it is believed that the whole Black sea coast will soon be out of bolshevik hands.

STORED BUTTER SEIZED BY U. S.

Chicago, Aug. 14.—One thousand and two hundred and eighty tons of butter, valued at \$50,000, were seized here today on libel warrants issued by the United States district attorneys office in the government's war on the high cost of living.

DISCUSSION WILL BEAR ON TREATY

COMMITTEE AGREES TO MAKE PUBLIC ALL INFORMATION IT SECURES.

PRESIDENT GIVES OUT NO COMMENT

Advisers Who Resigned In Paris To Be Quizzed On Disagreements.

(By Associated Press.)

Washington, Aug. 14.—After a two-hour discussion today the senate foreign relations committee decided to notify President Wilson that it would call on him at the White House at his convenience to discuss the peace treaty.

The committee also decided to call before it E. T. Williams, S. K. Hornbeck, and William C. Bullitt, who resigned as advisers to the American peace commission at Paris because, it has been reported, they disagreed with decisions by the conference.

A motion to call also Col. House, General Bliss and Henry White, American delegates to the peace conference, was voted down 9 to 8. Senators McCumber, North Dakota; Harding, Ohio, republicans, voting with the democrats as to the purpose of the committee in requesting that the president give it revolved around the subject of reservations to the treaty and the League of Nations. Before the committee acted it had been intimated at the White House that the president had not changed his attitude against reservations.

There was no indication at the White House when the president would receive the committee. To inquiries, Secretary Tumulty said: "We have no comment to make." In declining to request a conference with President Wilson, on which there was no committee vote, it was agreed that all information secured from the president should be made public.

Wilson Favors Speed
It was intimated at the White House that the attitude of Senator Hitchcock, of Nebraska, who told the foreign relations committee yesterday that while the committee reported the treaty out in the near future, an attempt would be made to have it called up in the senate, reflected that of the president.

Secretary Tumulty said there was a "strong possibility" that the president would start on his speaking tour when the treaty was reported by the committee. He was intimated that while the president saw no need for further conferences with the republican senators, he still was holding himself at the disposal of the committee.

No date has been set for reopening the hearings with Messrs. Bullitt, Williams and others as witnesses. Some of those to be called are not in the city as soon as they are available. All the hearings will be open, Chairman Lodge announced.

STRIKING SHOPMEN OF NATION MEET

Chicago, Aug. 14.—Several thousand striking railway shopmen from all parts of the country met here today to consider the question of returning to work in accordance with President Wilson's demand. Local leaders urged the strikers to stand firm while international officials advised the men to call off the strike and defer until later the settlement of their demands for higher wages.

Eastern R. R. Strikers Take Vote on Return

Boston, Aug. 14.—Traffic conditions on New England railroads after today will depend largely on the count of ballots cast by mechanics and shop men who struck last Thursday and Friday for increased wages.

A. E. F. Gives Expression of Gratitude to French

Paris, Aug. 14.—On the occasion of the departure of the last American units from the former base at Giverny, Col. Samuel Reber, commander of the camp issued an order of the day expressing the gratitude of the American troops to the French people. He urged the troops to remember their pleasant sojourn in France.

RADICAL DOWNTURNS IN PRICES TAKE PLACE

Chicago, Aug. 14.—Radical downturns in grain and provision prices took place today. Breaks were largely ascribed to seizures of food hoards and to other developments in the war against the high cost of living. Corn fell 8 1/2 cents a bu. to \$1.33 September delivery and pork 2.35 a barrel to \$44, September.

WANTED.

Janesville residents with a vision to embrace the opportunity now presented can lead the way in providing homes for workers at a fair rent.

Such a vision must, perforce, reveal that building houses for rent—moderate rent—WILL PAY, BOTH AS A RENTAL INVESTMENT AND PROSPECTIVE SALE.

With the development assured—with the job of caring for 15,000 men staring us in the face, it does not appear that even a vision is necessary to realize that VALUATIONS WILL BALANCE THE INCREASED LABOR AND MATERIAL COST NOW PRES-ENT.

Let's shake ourselves awake to the fact that we are under the microscope of critical inspection. Outside capital cannot be induced to invest in Janesville if Janesville people fail to invest in their own city.

It is unfortunate, yet true, that there live here people who take from Janesville all they can extract but who fail to return a farthing.

There are here, too, those who have a vision and who have sacrificed time and money demanding in return but that the ideals for a making of a real city become effective and realized.

If Janesville is to even in a small way meet the situation, BUILDING OF DWELLINGS MUST BE BEGUN IN THE NEXT 30 DAYS, else the winter of 1919-20 will bring to pass a situation here that will cause discredit rather than commendation.

It is difficult to realize that Janesville with its wealth continues indifferent. To the observing no other judgment is possible than that Janesville is not prepared to take advantage of its rare opportunity or that it is consciously indifferent.

IT HAS BEEN OFFICIALLY STATED THAT FOR A NUMBER OF YEARS EVEN WITH THE UTMOST EFFORT EXERTED THE DEMAND FOR HOUSES WILL NOT BE FULLY MET; that is to say that the development plans for the Samson plant will be in excess of the immediate housing. As a business proposition it appears that no better opportunity ever was offered to a city.

This is no plea in the interest of the Samson Tractor company, but it is a plea for constructive thought and intelligent action on the part of the citizenship of Janesville to aid in making possible to the fullest extent the dream of a lifetime and to show an appreciation for the gift graciously bestowed upon the city.

Janesville can be Wisconsin's second city if her people are equal to the occasion.

THE ANSWER IS UP TO JANESVILLE.

Year at Hard Labor is Gallivan's Sentence

Dublin, Aug. 14.—Peter Paul Gallivan, member of parliament from the west division of Cavan, who was court-martialed on a charge of illegal drilling of troops and the incitement of soldiers to mutiny, was sentenced to a year's imprisonment at hard labor.

PROFITEERING TO BE RULED BY LICENSES

FOOD ADMINISTRATION TO REVOKE RIGHTS OF SELLERS EXCEEDING PROFITS.

11 CENTS HELD AS BASIC PRICE

Hearings On Proposed Legislation Regulating Cold Storage Are Continued.

(By Associated Press.)

Washington, August 14.—Through license regulations and power of the food administration to procure the cancellation of licenses, the department of justice hopes to reach some cases of profiteering in sugar that it would be more difficult to reach through enforcement of the criminal provisions of the food control act.

This position of the department was made plain in a circular sent to district attorneys today calling attention that food administration officials had taken the position that sugar should not retail for more than 11 cents a pound and that "where it is retailing for more it indicates that either the wholesaler or retailer is making an unreasonable profit."

Hearing on proposed legislation regulating cold storage concerns were continued today by the house agriculture committee with F. G. Urner, editor of Products Review of New York, testifying further restraint. He said the legislation under consideration would tend to decrease the usefulness and efficiency of the cold storage system.

H. G. J. Funds... Approving a total of nearly \$500,000 with which to help carry out the president's suggestions for reducing living costs were asked of congress today by the agricultural department.

Mr. Palmer was to appear later before the senate agricultural committee to explain amendments to the food control act extending anti-profiteering sections to clothing and other necessities and providing penalties for violations of the law.

When the committee met today several expressed divided opinions as to the necessity for the legislation. "If we amend this bill," said Senator Bell, democrat, South Carolina, "it will mean we will include every article of commerce and the commerce of America in the hands of the department of justice."

Discuss Clothing Bill.
Senator McNary, republican, Oregon, said the bill now is sufficient to reach any conceivable case, while Senator Smith, democrat, Georgia, expressed doubt that congress had constitutional power to pass legislation except as a war measure.

Chairman Gronna explained that Mr. Palmer's proposals were designed to carry out recommendations made by President Wilson, who had pointed out that no penalty was provided for the prosecution of profiteers.

"With conditions as they now are over the country," said Senator Johnson, democrat, South Dakota, "amendments will not hurt this act, and I favor giving Mr. Palmer all the power he asks to see if he can accomplish what we desire to have him accomplish."

It was said proposed amendments would be taken tomorrow.

GARRANZA WARNED OF RADICAL CHANGE

Washington, Aug. 14.—Warning that there would be radical change in the policy of the American government regarding Mexico if the Carranza government continued to fail to protect the American citizens in the country was contained in a note sent to the Mexican foreign office July 22.

Coal Shortage Ties Up Yorkshire Industries

London, Aug. 14.—The industries of Yorkshire, particularly textiles, have been seriously affected by the coal shortage arising out of the strike of 200,000 miners who voted yesterday to return to work. More than 50,000 men and women are out of employment because of the shortage in fuel. Steel and iron mills in Lancashire have begun to shut down because of lack of coal supplies.

Romanoff Accepts Throne?

ATLANTIC CITY HAS WELCOME READY BUT NO ROOMS

(Continued from page 1).
you a small room in which all of the
floor space is occupied by two double
beds and three cots.
You can have a double bed for \$3,
or a cot all to yourself for \$5, she
admits. "We ain't got no more chairs
in the dining room." No, there
won't be more than seven men in here
tonight, and I never put any drunks
in this room."

So it goes until the panting, pre-
spering, supplicant is willing to
take almost anything, and begins to
regret some of the things he passed
up scornfully a couple of hours ago.
At last he comes to another. He
approaches the lean, inscrutable look-
ing woman behind the desk with a
determined smile.
"Could you give me any sort of a
room?" he inquires, timid yet hopeful.
Without batting an eyelid or alter-
ing her cryptic expression, the
woman replies:
"Yes, sir; I can give you a room."

Our Hero Falls forward, catching
at the desk with one hand, while
with the other he reaches for the
pen to register. Taking no notice
of his obvious emotion, the woman
tosses a key to a uniformed black
"Taker the gentleman to tenville,"
she mysteriously commands.
Now this is a true story, and ten-
ville is a fact. Only the name of the
hotel of which it forms a part is fic-
titious.

The house is another one of those
hotels made by combining several of the
residences built by early settlers in
these parts. Each floor is a maze of
different levels, and it is difficult to
ascertain the exact arrangement
which furnishes the guest with an
amusement not mentioned in the ad-
vertisements. It takes a man with a
keen sense of direction to learn in
three days how to find the bath room
without a guide.

This is Tenville.
At the rear of the house is a large
room which is probably used as a cen-
ter or more ago as a store room.
Since it has but one small window.
This room is tenville. It has been
divided by partitions of cloth, and
seven feet high into at least a dozen
small rooms, giving it much the ap-
pearance of a giant wasp nest. Each
of these cubicles contains a \$2 cot, an
electric light, and nothing else. The
partitions serve the purpose of a
privacy in that they make it impos-
sible to recognize the features of your
next door neighbor, but they allow you
to study his silhouette, and to memorize
all his coughs, sneezes and groans.
The price of a night in tenville is \$3, paid
in advance.

Here, then, our hero at last finds a
haven. He takes off his collar and
his shoes, and sits round until it stands
almost level, and stretches himself
luxuriously at full length, heaving a
mighty sigh.
He has his welcome to Atlantic
City.

LOCATION IS CHOSEN FOR NEW RIFLE RANGE

An ideal location for a rifle range
for the Janesville Rifle club has been
found, according to Sec. S. B. Wood-
ruff, who requests that all hands be
out Sunday morning to pick a spot
for the range. The spot chosen for
the range is in the big pit of the
Janesville Sand & Gravel com-
pany along the C. & N. W. railroad
tracks, near the Black bridge. An
inspection of the land by officials of the
club and members of Company G re-
sulted in the decision to secure it as a
permanent range.

It will be possible to have three dif-
ferent ranges—200 yards, 300
and 500 yards. Targets are now being
prepared and will probably be ready
for erection Sunday morning. A high
embankment in back of the proposed
location of the range will safeguard
lives and property.

Shipments of additional supplies of
ammunition from Washington are ex-
pected daily. The fact that Sgt. A. J.
and W. H. Hart of Company G received a
week of valuable instructions on the rifle
range at Camp Douglas this year has
qualified them to act as leaders in the
work here. The range club members is
growing now that the new range has
been secured.

For several weeks the club has
been idle. The fact that the rifle
club's range near Town
Line bridge proved unsatisfactory and
since abandoning its use nothing fur-
ther was done until the new location
was chosen.

"There's a Reason"

PACKERS ARE KAISERS RULING MARKETS, LA CROSSE IS TOLD

(SPECIAL TO THE GAZETTE).
La Crosse, Aug. 14.—The city of La
Crosse has started to arouse sentiment
against profiteering by public mass
meetings. A large gathering was held
at Levee park, Wednesday afternoon,
addressed by James Thompson, who
denounced the packers as "two legged
food hogs, who never look into the
sunlight of economic and political de-
cency."

He urged that the cold storage
plants be controlled by the govern-
ment and jail sentences for violators.
"We fought the Kaiser because he
wanted to dominate the politics of
Europe," declared Mr. Thompson.
"Now we are fighting the packers at
home. There are five of them—the
five big packers, and their ambition is
not limited to one hemisphere, they
would dominate and control the
supply of food for the United States
of the world. They control, not only
the meat market, but the hide mar-
ket, and over 700 other commodi-
ties of life. Every home pays tribute
to them from the time you take your
breakfast food in the morning until
you close your eyes in slumber you
are paying tribute, tribute, tribute to
the huge packing trust. Not satisfied
with being packers alone, they have
sought to and do control the shipping
facilities, refrigerator cars, and storage
warehouses."

In 1908 they made the modest
sum of \$17,000,000; in 1917 \$80,000,-
000; in 1918 \$100,000,000; and if they
continue the way they are going now,
in 1919 they will make \$150,000,000.
The personal spending money of the
American people is \$1,000,000,000. There
are four of them in the family, is \$44,000,-
000 a year. May I submit that this
should be sufficient and they ought to
stop taking any more from the people.
Not content with their earnings,
they enter the legislative halls and
seek to improperly influence legisla-
tion. They deluge the newspapers
with paid advertisements and seek to
make of every editor and intellectual
prostitute. Wallowing in millions,
these two-legged food-hogs never look
into the sunlight of economic and
political decency. From Washington
we get the story that, after the price
of food has risen, the government has
made them nevertheless had the
audacity to request an exemption of
taxation on their foreign business. Ar-
mour, Cudahy, Wilson, Morris and
Swift, the five little fellows, are now
in a role of the overburdened to be-
mercy at the hands of Uncle Sam,
shedding crocodile tears, and praying,
"Uncle Sam, have mercy on us, re-
lieve us of our share of taxation or
death." These fellows are not so
what can be done in a financial de-
bacle."

"Other countries have accomplished
something. France has taken a price
at 15 percent, has fixed the price of
provisions, and is putting the profiteers
in jail. England has fixed the price on
94 staple articles and is getting after
the profiteers, to make them part with
their ill-gotten gains. In the United
States, where we are supposed to be
the most democratic of nations, we
prosperous monopolists like less than
parting with their spoils or serve a
term in jail."

"The government is about to re-
lease its large supply of stored food.
I do not know why it has not been
done earlier. But, thank God, it is
now to be done. We can get it out
now to the people. If they are held
unlawfully, as many of them unques-
tionably are, let them be confiscated
like the game warden confiscates fish
like the game warden held, and let the
people obtain these foods at a reason-
able price."

"I stand for as quiet a deal. Profiteer-
ing must stop. The hoarding of food
must not be permitted; supply and
demand should be allowed to control,
and our industry and agriculture
should forever be freed from parasiti-
cal agencies."

French Are of Loose Morals, Say Soldiers

At the gathering for Capt. Philip
Whitehead, which his father, John M.
Whitehead, gave last evening in hon-
or of his return, six men who were in
active service in France gave talks on
their experiences "over there."
They were Capt. Harold Pelton,
Lieut. Henry Carpenter, and Glen
Arthur, Orson Leomis, Major Frank
Van Kirk, and Capt. Philip White-
head.

Each of the speakers when asked
by George Charles Pfister concerning
the morality of the French people,
agreed that they were of loose morals.
They stated that they believed that
four years of war had had the effect
of sobering the French people.
Two hundred men were the guests of
Mr. Whitehead. At the close of
the evening, a buffet lunch was served
by Mrs. Whitehead.

BOARD OF REVIEW WILL HOLD MEETING

Notices have been posted in several
downtown places announcing the
meeting of the board of review which
will be held in the mayor's office
Tuesday morning at 9 o'clock. The
notices were sent out yesterday by City
Clerk Victor Hemminger.

Mr. Hemminger said today that the
meeting was to be held for the purpose
of examining and reviewing the assess-
ment rolls of real and personal prop-
erty and the sworn statements of
real and personal property.

City Assessor Frank L. Smith said
today that in all probability the final
figures would be available early next
week. Mr. Smith is busily engaged on
the work at the present time.

REPRIEVE GIVEN; DOG ORDERED SHOT

At the request of City Health Of-
ficer Fred Welch, the dog owned by
John Watson was not shot yesterday
as ordered by Judge J. L. Maxfield.
Dr. Welch requested that the dog be
held for two days before he was killed.

Judge Maxfield ordered the dog shot
after Henry Kressin complained that
his daughter had been bitten three
times Tuesday afternoon. Watson in-
formed the court that he did not own
the dog, as it was given to his daughter
by a Rockford party.

According to the story told by Mr.
Kressin, the canine has been allowed
to run at large for several days despite
the fact that Mr. Watson knew it was
ugly.

Milwaukee.—Bread will be sold at
two public markets daily from 7
a. m. beginning Wednesday. City
Sealer William F. Steinel, Tuesday re-
ceived permission to conduct the sale
from Mayor How who is on his vaca-
tion. The bread will be sold at 12
cents a loaf, weighing a pound and a
half. It will be made according to
formula approved by the city health
department and will be wrapped. It
will be union made. One thousand
loaves will be sold at each market.

STOLEN MACHINE IS RECOVERED

Charles W. Kemmerer is all smiles
today as he has recovered his 1914
cylinder car which was stolen from
Escher Beach, Madison, Sunday after-
noon. The car was recovered in Mil-
waukee when the alleged thief at-
tempted to sell it for a paltry \$100.
According to the story told by Mr.
Kemmerer, he left here early last
Sunday morning with Madison as his
destination. Just as he reached
Escherville he had two blow-outs and
he then decided to purchase two ex-
tra tires to carry with him.

Arriving at Madison he drove to
Escher beach and parked his car in
the parking area. He returned a few
minutes later and found the car miss-
ing.

Mr. Kemmerer lost no time in noti-
fying the Madison police and also the

C. S. Exams Opened to Returned Service Men

Under the opinion of the attorney general recently given to the civil service commission, United States soldiers, sailors, and marines who may have opportunity to enter civil service examinations because of their military or naval service may now be given a chance to qualify for government employment.

The civil service commission will open only to honorably discharged service men examinations which were pending April 6, 1917, the date of American declaration of war, and which were subsequently announced, and for which registers of eligibles now exist.

Sixty days from August 1, 1919, will be allowed soldiers, sailors, and marines in which to be examined for position for which examinations have already been held if they were discharged from the military or naval service prior to August 1, and 60 days from the date of their discharge will be allowed those discharged subsequent to August 1, 1919.

Heart and Home Problems

BY ELIZABETH THOMPSON
LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: I was born and reared in another state. My people were not careful as to convention or character. I do not understand why I should have been different, but they have held me in scorn for years because of my "narrowness." Being estranged by the people I so longed to be among, I began to realize there was small chance for a girl with her surname in that part of the state and so I moved away.

I am very glad I moved, for here I have had opportunity to satisfy my craving for friends among nice people. Yet here is my problem. Can a girl get entirely away from her own people?

I became acquainted with a fine young man in the office where I work. We have gone together almost all year. He wants me to marry him though there has been no formal engagement, that is, I have not accepted a ring and have made no vow. I do know that I love him and that he is everything I could wish in the way of a husband.

His people live out of town and they invited me down with him for a week's end. They are very well to do, from appearance and have social prominence. I tried my best to overcome the uncomfortable feeling that had been under much discussion and that my visit was merely to see a question of fitness. Indeed I fear I could not have stood it except for my friend's pride in me.

I have come to understand since then that they have taken the time to look into my family, for a little later I received a most unkind letter from his mother, urging me to release her son, assuming, of course, we were engaged.

I have told him nothing of the letter, knowing it would only hurt him.

He knows his people are opposed to our marriage and he also knows the truth about my people. He says he will not give me up. He is 27 and my father is 27 and my mother is 27. I am 24 and not very pretty, not of the type that generally attracts men, having been accused of being too tame and sensible. At any rate I shall have to admit to a few friends among men and no former lovers. I believe, however, I would make him a good wife.

Could not his parents make life very unpleasant for him in case we marry against their wishes? I do not love him so deeply but that I could try cheerfully to give him up in case his for the best. Would his marrying into a family like mine prove a handicap to him, as his mother feels it will. Would you please tell me what you would do under such circumstances?

VERY RESPECTFULLY YOURS,
Marry the man. Of course you can make him happy and you need not fear his parents. They are so cruel and unreasonable they will lose his respect.

Your fiancé's future depends upon what he makes it. His own ability and character will win his place in the world, regardless of his wife's origin.

I know from your letter that you will be a great help to him. It shows so much intelligence and character. Certainly you realize that you could bring him greater happiness because of his love for you, than any other girl, no matter what her social position.

Imagine that you are advising some other girl in your position. I am sure you would say that she should marry. The prejudice of his parents means nothing in the face of love.

SATIN SUIT FROCK FOR LATE SUMMER

By ELOISE.

What to wear during the between seasons is always a problem. The sales of summer clothes tempt one just now but the wise woman will buy with an eye to the future instead of the past. She will want something which will be suitable for early fall as well as for late summer. The dark silk or satin frock is the most practical costume for this purpose. And the suit frock instead of the one-piece dress is often found more suitable for town and traveling.

When contemplating a trip in town whether for business, pleasure or shopping which seems to be a combination of both, a suit frock like the one pictured will make an ideal costume with vest, collar and sleeves of putty-colored silk crepe. The smart little sailor which completes the outfit is made of navy satin and putty colored velvet.

The hat as well as the frock may be worn in late summer and early fall. The costume will be used as a suit until the cool weather makes a coat necessary and then it will take the place of a one-piece frock. This uncoordinated effect which predominates in the new season's styles in the suit in this suit frock, although the straight slim lines are still adhered to.

They're short of help," explained the colored man, noting Annie's distressed face. "The nurse'll get it for him after a while. They ain't no more good folks round to take care of us right good. It's de free ward."

He said the concluding words as if they explained everything. And so they did, thought Annie, beginning to feel hysterical as the man continued to shout for his drink of water. Presently the nurse at the end of the room rose and came down the ward toward him.

"All right, all right," he called out impatiently. "I can't do more than ten things at once." He brought the water, and the half-delirious fellow lay down again, muttering: (To be continued.)

THE FATAL HABIT.
There is the same difference between the tongues of some as between the hours and the minute hand, and goes ten times as fast and the other signifies ten times as much. —Sidney Smith.

Wasn't it Mark Twain who told about the steamboat that had such a big whistle that every time they blew the whistle the engine stopped—because there wasn't power enough for both. I think one sometimes meets people who make one think of that steamboat because it is so much power to keep their tongues a-going that there isn't enough to supply their brains, too.

He Must Have Fuel to Keep the Fire Going.
What a deadly thing this habit of

chopped capers, one tablespoon granulated gelatin, two tablespoons cold water, cup boiling water, two tablespoons lemon juice, one-quarter teaspoon salt, mix the fish and capers. Arrange in a mold. Soak gelatin in cold water, stir until dissolved, then add lemon juice, boiling water and salt.

Pour this jelly carefully over the fish and set in a cool place to harden. Cut into portions and serve on lettuce with plenty salad dressing. Hard-boiled eggs slices may be added to the fish. This dish may be prepared in the morning early and is a change from the heavy summer luncheon hot dish. Cottage Cheese and Nut Loaf—One cup cottage cheese, one cup nut meats, one cup stale bread crumbs, juice of one lemon, one teaspoonful salt, one-quarter teaspoon pepper, two tablespoons chopped onion, one tablespoon butter substitute, meat drippings of oil. Mix cheese, ground nuts, crumbs, lemon juice, salt and pepper.

Cook onion in the fat and a little water until tender. Add to first mixture the onion and sufficient water to meat stock to moisten. The dark pour into a baking dish and brown in the oven. This dish furnishes plenty of protein, is easily prepared and takes very little heating compared to meat.

Two cups cooked oatmeal may be used instead of the cheese and bread crumbs. Left over beans, about a pound, cold, may be put through the meat grinder and used, or American ground beef may be used. The amount of liquid will vary and seasoning may be varied to suit the case.

FOR BERRY SEASON

Berry Muffins.—Place in a mixing bowl one and one-half cups of cooked berries, four tablespoons of shortening, one egg, one cup of brown sugar, two and one-half cups of flour, five level teaspoons of baking powder, one-half teaspoon of cinnamon.

Beat to mix and then bake in well-greased and floured muffin pans in a moderate oven for 20 minutes. Cool and ice with water icing made from sugar and sufficient hot water to make the mixture spreadable.

Berry Shortcake.—Place in a mixing bowl three-quarter cup of sugar, one egg, four tablespoons of shortening, two cups of flour, four teaspoons of baking powder, three-quarter cup of water.

Beat and mix and then pour into well-greased oblong pan and bake in a moderate oven 20 minutes. Cool and then split and fill with prepared berries and serve with custard sauce.

To prepare the berries for the shortcake, place in a saucepan two cups of stewed berries, one-half cup of cornstarch, one cup of brown sugar. Set to dissolve and then cool and use for the filling.

haul out a most painful family skeleton when he thought interest in his perpetual flow of talk seemed to lag. So He Throws In Other People's Private Affairs.

Then there's the person who throws in other people's private affairs when the fire burns low. "She told me not to tell this to anyone, but I know you won't tell, etc." Never in your life tell any of your affairs to a person who has the talk habit! He won't mean to tell, but needs must when the talk habit drives.

And then there is the person who tells you about things you already know, repeats what he has said once, goes into all kinds of boring detail because he must talk and he hasn't anything to say. I know one who who reads his newspaper through in the morning and then says to you (who have also read yours), "Did you see such and such a thing?" You say,

"Yes, but he goes right on and repeats the whole article to you. Now and then you may interpolate, 'Yes, I read that,' but he does not care if you did—he has to talk.

What the Proverb Makers Say About Talk.
It is interesting to see how the proverb of all nations sums up the evils of the habit of talk: "A great talker never wants for enemies," say the Chinese. "Long talks make short days," say the French.

"Great talkers are not great doers," say the Dutch. "The always talk who never think," say the English.

"Talk little and well and you will be looked upon as somebody," say the Spanish. Which is such a very good keynote that I think I'll leave you right there.

HEALTH TALKS

BY WILLIAM BRADY, M. D.
LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

CONSTIPATION VERSUS DRUG DEPENDENCE

Auto-intoxication is a fascinating story, with almost infinite possibilities, if you are of an introspective or self-sufficient type. The only serious drawback about auto-intoxication is that no one has been able to prove that there is such a condition. We deduce in certain circumstances a probable absorption of harmful substances into the blood from the intestinal tract, but our deduction is almost wholly hypothetical, after all.

The greater part of the millions of dollars spent annually for drugs goes to purchase laxatives, physics, aperients or alleged correctives of auto-intoxication. Indeed, there are millions of people who consider constipation synonymous with auto-intoxication, although the only basis for such a view is the plausible argument set forth by the fellow who has some new-fangled physics to sell. One meets with innumerable cases of constipation without any trace of auto-intoxication, and, on the other hand, one counters many cases of presumable auto-intoxication (as an accompaniment of various illnesses) without constipation.

Even if auto-intoxication were a demonstrable entity and secondary to constipation, it would be rather puerile to imagine that the use of any physic could obviate the evil. On the contrary, there is good scientific ground for the belief that the frequent or habitual use of cathartics often produces a kind of auto-intoxication or self-poisoning which would not have occurred from the constipated state itself. A few years ago an eminent surgeon and pathologist even sought to explain attacks of epilepsy on the basis of disturbances of the intra-abdominal or intestinal pressure brought about or aggravated in many cases by the taking of cathartic medicines.

A physic is sometimes of distinct value in the treatment of disease. It is exceedingly questionable whether the habitual reliance on any laxative on cathartic medicine is ever of any value to the health of an individual and there is no question at all that the physic habit works havoc with the health of thousands of thoughtless or health-ignorant people. Some, ancient healers urged the necessity of keeping the bowels open as an insurance of good health is no reason at all to imagine that health depends on the action of the bowels.

As between constipation and the physic habit, constipation will do a great deal less harm.

QUESTIONS AND ANSWERS.

The Stomach Eaters.
Did you ever hear of anyone eating sand to cure stomach trouble? (L. M. N.)

ANSWER.—I knew a man who swallowed one or two teaspoonfuls of white sand twice a day for a long time, and he kept it up until he had developed sarcoma (most malignant

type of cancer) of the intestine and died. Whether his sand-eating habit had anything to do with that, of course, I do not know. However, I should hardly take sand as a remedy, but instead I should gratify the desire for roughage by including in the diet plenty of wheat bran, skins of potatoes (baked), green vegetables and the whole corn. Infants and young children who display a craving for earth probably are receiving insufficient roughage or insufficient mineral matter in their regular diet.

Exercise.
1. Is it advisable to exercise the small intestine by contracting and expanding the abdomen jerkily? 2. May one sleep all night with the feet elevated and higher than the head? 3. In exercising the back, in elevating the feet and throwing most of the weight on the neck and shoulders as props and the palms as supports for the hips, is there any danger of breaking one's neck? 4. Is there danger of absorbing oxalic acid by licking buttonholes to make collars slip on easily? (R. P. C.)

ANSWERS.—Yes. 2. Yes. 3. No. 4. No—but licking a buttonhole is unsanitary; use water instead of saliva.

Directions for Making Coffee.
Kindly publish your directions for making wholesome coffee, for the benefit of those who have forgotten. (G. H. S.)

ANSWER.—Put as much cold water in the pot as required. Add the coffee, stir in a little white of egg, then put on the fire. Watch the pot. A watched pot never boils, and neither does coffee that is fit to drink. When it is about to boil up take it off the fire and let stand a few minutes before pouring.

Enlargement of the Heart.
I am nineteen years old and have enlargement of the heart. Can this be cured? (G. F.)

ANSWER.—This would depend on the cause of the enlargement and the nature of the enlargement, whether the heart has stretched under strain or the muscle has undergone increased development to compensate for an additional load of work. Often enlargement of the heart is a distinctly beneficial process in itself.

Cranberry Crop Good.
Raineaunder—With one of the biggest blueberry seasons in the history of northern Wisconsin nearly at a close, the prospect for a bumper crop of cranberries are bright at the present time. Blueberry canneries in this locality report that they have never had such a big output of berries.

The Magnificent Ambersons

By BOOTH TARKINGTON

Copyright by Doubleday, Page & Co.

"My dear!" said George. "I can't stand this!"

"You have the option of dropping the subject," Mrs. Johnson suggested tartly, and she added: "Or of leaving the house."

"I'll do that soon enough, but first I mean to know."

"I am perfectly willing to tell you anything you wish if you will remember to ask it quietly. I'll also take the liberty of reminding you that I had a perfect right to discuss the subject with your aunt. Other people—"

"Other people!" the unhappy George repeated viciously. "That's what I want to know about—these other people! You say you know of other people who talk about this."

"I presume they do."

"How many?"

"What?"

"I want to know how many other people talk about it?"

"Dear, dear!" she protested. "How should I know that?"

"Haven't you heard anybody mention it?"

"I presume so."

"Well, how many have you heard?"

Mrs. Johnson was becoming more annoyed than apprehensive, and she showed it. "Really, this isn't a courtroom," she said. "And I'm not a defendant in a libel suit, either!"

The unfortunate young man lost what remained of his balance. "You may be!" he cried. "I intend to know just who's dared to say these things."

If I have to force my way into every house in town, and I'm going to make them take every word of it back! I mean to know the name of every slanderer that's spoken of this matter to you and of every tattler you've passed it on to yourself. I mean to know—"

"You'll know something pretty quick!" she said, rising with difficulty; and her voice was thick with the sense of insult. "You'll know that you're out in the street. Please to leave my house!"

George stiffened sharply. Then he bowed, and strode out of the door.

Three minutes later, disheveled and perspiring, but cold all over, he burst into his Uncle George's room at the Major's without knocking. Amberson was dressing.

"Good gracious, George!" he exclaimed, "what's up?"

"I've just come from Mrs. Johnson's—across the street," George panted.

"You have your own tastes!" was Amberson's comment. "But curious as they are you ought to do something better with your hair, and button your waistcoat to the right buttons—even for Mrs. Johnson! What were you doing over there?"

"She told me to leave the house," George said desperately. "I went there because Aunt Fanny told me the whole town was talking about my mother and that man Morgan—that they say my mother is going to marry him and that proves she was too fond of him before my father died—she said this Mrs. Johnson was one that talked about it, and I went to her to ask who were the others."

Amberson's jaw fell in dismay. "Don't tell me you did that!" he said, in a low voice; and then, seeing it was true, "Oh, now you have done it!"

"I've done it!" George cried. "What do you mean? I've done it? And what have I done?"

Amberson had collapsed into an easy chair beside his dressing table, the white evening tie he had been about to put on dangling from his hand, which had fallen limply on the arm of the chair. "By Jove!" he muttered. "That is too bad!"

George folded his arms bitterly. "Will you kindly answer my question? What have I done that wasn't honorable and right? Do you think these ruffians can go about bandying my

mother's name?"

"They can now," said Amberson. "I don't know if they could before, but they certainly can now!"

"What do you mean by that?"

His uncle sighed profoundly, picked up his tie, and, preoccupied with despondency, twisted the strip of white lawn till it became unwearable. Meanwhile, he tried to enlighten his nephew. "Gossip is never fatal, George," he said, "until it is denied. Gossip goes on about every human being alive and about all the dead that are alive enough to be remembered, and yet almost never does any harm until some defender makes a controversy."

"See here," George said, "I didn't come to listen to any generalizing dose of philosophy! I ask you—"

"You asked me what you've done, and I'm telling you," Amberson gave

"Gossip is never fatal, George," he said, "until it is denied."

him a melancholy smile, continuing: "Suffer me to do it in my own way. Fanny says there's been talk about your mother, and that Mrs. Johnson does some of it. I don't know, because naturally nobody would come to me with such stuff or mention it before me; but it's presumably true—I suppose it is. I've seen Fanny with Mrs. Johnson quite a lot; and that old lady is a notorious gossip, and that's why she ordered you out of her house when you pinned her down that she'd been gossiping. I suppose it's true that the 'whole town,' a lot of others, that is, do share in the gossip. In this town, naturally, anything about any Amberson has always been a stone dropped into the center of a pond, and a life would send the ripples as far as a truth would. You can be sure that for many years there's been more gossip in this place about the Ambersons than about any other family. I dare say it isn't, because the town got too big long ago, but it's the truth that the more prominent you are the more people would like to pull you down. Well, they can't do it as long as you refuse to know what gossip there is about you. But the minute

you notice it's got you! I'm not speaking of certain kinds of slander that sometimes people have got to take to the courts; I'm talking of the wretched buzzing the Mrs. Johnsons do—the thing you seem to have such a horror of—people talking—the kind of thing that has assailed your mother. People who have repeated a slander either get ashamed or forget it. If they're left alone, people will forget almost any slander except one that's been fought."

"Is that all?" George asked.

"I suppose so," his uncle murmured sadly.

"Well, then, may I ask what you'd have done in my place?"

"I'm not sure, George. When I was your age I was like you in many ways, especially in not being very cool-headed, so I can't say. Youth can't be trusted for much, except asserting itself and fighting and making love."

"Indeed!" George snorted. "May I ask what you think I ought to have done?"

"Nothing."

"Nothing?" George echoed, looking bitterly. "I suppose you think I mean to let my mother's good name—"

"Your mother's good name!" Amberson cut him off impatiently. "Nobody has a good name in a bad mouth. Nobody has a good name in a silly mouth, either. Well, your mother's name was in some silly mouths, and all you've done was to go and have a scene with the worst old woman gossip in the town—a scene that's going to make her into a partisan against your mother, whereas she was a mere prattler before. Don't you suppose she'll be all over town with this tomorrow? And she'll see to it that everybody who's hinted anything about poor Isabel will know that you're on the warpath; and that will put them on the defensive and make them vicious. Viney Is Heaviest Sticker On Local Shore League Team

By George McManus.

SACHS TOPS LIST WITH .484 AVERAGE

"Sunny" Viney, crack left-fielder for the Lawrence Jones, is without doubt the meanest sticker on the team at the present time, according to official batting averages for the 15 games completed and released today by Manager J. A. Murphy. In 48 times at bat Viney has hit safely 10 times, many of them for extra bases, driving in a dozen runs with his time was tops in figuring well up in the run column himself.

Sachs, who has been playing right field for the major portion of the season, leads the team in batting with an average of .484, getting 15 hits out of 31 chances. It is probable that Sachs will not be seen in a Janesville uniform again this year. He has gone to Chicago to play for the Cubs, one of the fastest clubs in the Windy City.

Pierce is third. His official average is .398, while Pierce, reliable short-stop, who is holding down third place in the sticking list, has an average of .347. "Seventeen hits out of 40 opportunities" is the record of "Tidie" Gray, the new member of the team, who is expected to take Sachs' place in right field, gives promise of being among the leaders at the end of the season. He secured one hit in his first game last Sunday for an average of .333.

"Victory" Bonds stands in fifth place with .333, the other .300, hitter, in the next berth. Dopp, Lanquist, Crooke, Miller and Gorman follow in the order named.

The team's batting averages released today, follow:

	AB.	H.	Pct.
Sachs	31	15	.484
Viney	48	10	.417
Pierce	40	15	.375

Tickets for the big Booster game with Manitowoc here Sunday were placed on the downtown cigar stores today by Manager Murphy, who also started out to canvass the business section in the pastboard selling campaign. The fair of the community has been asked to back the enterprise for the affair Sunday. The grandstand will be packed to overflowing at the Manitowoc game if the ticket sale proceeds as fast as expected.

Unless the Fair association consents to allow the Waupun game on the fair grounds August 21, the Manitowoc battle will be the last one here until September 14. The fair board has refused Manager Murphy permission to play here on that date because of the fact that the fair opens on the following day. A reconsideration is being urged on members of the board.

MAYS' BASEBALL WAR STARTS IN NEW YORK

(BY ASSOCIATED PRESS)

New York, Aug. 14.—At a special meeting of the board of directors of the American league of baseball clubs here today, the powers of President E. B. Johnson in his relations with the club owners formed the chief topic for discussion. The meeting was called by a majority of the directors, consisting of Charles A. Comiskey, Jacob Ruppert and Harry H. Frazee, representing respectively the Chicago, New York and Boston clubs, and was the result of the indefinite suspension of Carl Mays, a pitcher, recently sold by the Boston club to New York. The other members of the board include President Johnson and James D. Dunn, president of the Cleveland club.

In addition to considering the powers exercised by President Johnson, it was announced that the majority would make inquiry concerning Mr. Johnson's relations with the Cleveland club. Further legal complications developed yesterday in the Mays controversy when a court order was obtained by officials of the New York club requiring President Johnson to appear before a referee in this city Friday to answer questions regarding a possible financial interest in the Cleveland organization. Mr. Johnson was served with an injunction preventing him from utilizing a league sinking fund in defending cases against him growing out of the controversy.

A hearing will be asked as to his alleged embezzlement toward Mr. Frazee of the Boston club and why pitcher Mays was suspended without an opportunity to answer charges.

Baseball men in close touch with the situation said today that late developments indicated that the case would not be settled out of court as hoped. Rumors of a settlement, however, were abandoned.

At no time is the tire question more important than when ordering a car. The buyer who specifies Firestone Gray Sidewall Tires has taken the shortcut to permanent satisfaction. He has escaped the costly period of experimenting.

No more convincing proof of this could be desired than in the mileage records of the Gray Sidewall Tires during the past year. Your dealer knows.
